About Me

I am a student at SMK Wikrama Bogor majoring in PPLG (Software and Game Development). Currently I am focusing on becoming a Back-end Developer. I hope I can become a reliable programmer and be useful in society

Project experience

Company Website - Frontend Development -PT.Wan Teknologi

A Website Using VueJS, Express Js and API as the basis for creation.

A website uses CSS and Bootstrap as the basis for its appearance.

Presents the Default Website regarding the Company's blog

Default Website Game - Web Development

A Game Website that uses HTML5 canvas, CSS and vanilla Java Script as its basis.

Presenting a website about simple parkour games

Default Apotek App - Web Development

A pharmacy website that uses a PHP system based on the Laravel framework, in the form of middleware, authorization and authentication
